Rand a Round – Selection Policy 2021

This policy will outline on how the rand a round players will be selected for PAT events and other national events.

As within the Terms of Competition, the following preferences will take place:

1. Paying players get first preference
2. Rand a Round players will be selected for the Opens on the following basis:
 - a. If there is space available once entries have closed
 - b. Your performance in the previous PAT Open,
 - i. Number of entries in the tournament / 2 = half the field
 - ii. You would have had to finish in the Top 40 if the field consisted of 80 players etc.
3. Should the rand a round entries be over subscribed for such event, then a ballot process will be done. This will be performance based (as per the control sheet) with previous tournaments scores. Should the event be the first event, we will review the past years performances.
4. National Events – at the discretion of the President and Exco, there may be exemptions for entries from this fund into national events, in terms of entry fees and a donation to expenses.

These conditions are subject to change at the discretion of the WP Golf Office and WP Golf Exec.
